WORLD PNEUMONIA DAY 2018

Today is World Pneumonia Day. Please take a moment to observe WPD 2018 and help our global community raise awareness around pneumonia prevention, treatment interventions, and exciting innovations in the pneumonia space. See WPD events taking place this week in addition to newly published pneumonia articles below. We hope you join the Pneumonia Innovations Network in observing WPD 2018.

Publications

- JustActions will release their report, "*The Missing Piece: Why continued neglect of pneumonia threatens the achievement of health goals.*" The report will be hosted on the www.stoppneumonia.org website.
- IVAC has released their 2018 Pneumonia & Diarrhea Progress Report. Access the full report [here](#).
- JAMA Pediatrics: *Placebo versus amoxicillin for non-severe fast-breathing pneumonia in Malawian children aged 2-59 months: a double-blind, randomized controlled non-inferiority trial*
- The Lancet Global Health: *A hundred years after the 1918 influenza pandemic - the role of bacterial vaccines in prevention of pandemic and seasonal influenza mortality.* Read the full comment [here](#).
- The Lancet Global Health: *The disgraceful neglect of childhood pneumonia.* Read the full comment [here](#).

JustActions has named ten new PneumoniaFighters! for 2018. Find out who they are [here](#).
